

Parable Roll Felt Pieces

Wooden Beads (not necessarily matching or identical size)

Cut each piece and place in individual rolls for children. You might keep the wooden beads separately, or keep all of the items together in a small bag. Use the pieces each week to “construct” or layout your parables as they’re told. Not every piece will be used each week, but these pieces are enough to adequately share each story. You may also include a wooden person figurine.
