

## Follow-Up Work from Module 8

Everyone:

- Using the “Collaborative Communication & Implementation” worksheet, decide which approaches for creative implementation to undertake, and make a plan within your Triad and Vision Teams to begin to implement these ideas.

Children’s Ministries Leader:

- Decide how to communicate official changes in vision, philosophy, and programs to volunteers. This could be through a volunteer meeting, newsletter, or a set of trainings. At this point, the vision statements has been shared with the church community and new volunteers are joining the ministry. Focus on positive changes, practical adjustments to ministry involvement, and collaboration with committed volunteers for creatively achieving these vision changes. Consider providing volunteers with some of your guiding documents like the 1-page Scripture Summary for your church or the Frankena Model of their particular ministry area.
